REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the claimed invention comprising a fan and oscillation motor with the feature of position indication providing a signal to a control means electrically connected to the oscillation motor with a monitoring means connected to the control means is not found in the prior art either singly or in combination. The closest prior art is considered applicants' prior patent (US 6,675,739) in view of Jones (US 5,822,878) which disclose a livestock cooling system and an automobile oscillation dryer, however there is no motivation to combine those references in order to obviate the claimed invention. Other prior art references cited in this action teach at least one but not all of the features of the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen Gravini whose telephone number is 571 272 4875. The examiner can normally be reached on normal weekday business hours (east coast time).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ira S. Lazarus can be reached on 571 272 4877. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
